

MARYLAND MAYORS *for* 100% CLEAN ENERGY

I, Mayor _____ of _____ support a goal of 100 percent clean, renewable energy in my city and across the United States.

I believe that a transition to 100 percent clean energy is good for my community: It will make us stronger, healthier, and more resilient; it will create jobs and new business opportunities; and it will allow us to become a more equitable society where everyone has opportunity in a thriving local economy.

The benefits of a rapid, just, and equitable transition to renewable energy become more evident by the day. In Maryland, action by local governments is already a significant driver of

renewable energy growth because towns and cities across the state know firsthand that steps to reduce carbon emissions will clean the air, strengthen the economy, and improve lives.

Positive, bipartisan, community-driven solutions are possible and already happening in our community. I will continue to work with all stakeholders to transition away from dirty energy and invest in local, affordable solutions like energy efficiency, solar, wind, and pollution-free electric transportation.
