Subject: For the Town Council

Lower Ridge Road is a disaster waiting to happen...unless some action is taken to reduce vehicle speeds. This part of Ridge has very poor sight lines and is frequented by many walkers, runners, and children who pay little attention to traffic hazards. It is only a matter of time before someone is killed or seriously injured.

The solution? That's hard to say but a speed bump wouldn't hurt. Upper Ridge Road is straight as an arrow, yet it has three speed bumps. It's only fair that at least one be installed on lower Ridge Road to reduce vehicle speeds and reduce pedestrian hazards.

I fully endorse action to determine a suitable location and install a speed bump on lower Ridge Road.

Sincerely,

John C. Tomlin
358 Ridge Road
