Dear Mr. Mayor,

Why we want three signs welcoming people to the Grove is beyond me. What's the point of encouraging traffic in town?

Rather than spend 10k on new signs why not just have the people who did the street signs make town appropriate signs for about a thousand dollars?

Really I don't see the need at all and that is a hell of a lot of money for what?

Will you do me a favor and forward this to other council members?

Thanking you in advance.

My front porch poll of walkers on Acorn Lane give the sign idea an extremely low rating.

I really appreciate your service and know it is a thankless job and we are lucky to have you and the other council members.

Thank you.

Sincerely,

Kevin Ambrose
