RE: Proposed charging stations

Dear Mayor Compton, Councillors, and Commission Chairs:

I understand the Sustainability Group may be proposing placing vehicle charging stations on Chestnut Road between McCathran Hall and the entrance to Miller Drive. While I understand that having one or more charging stations might be helpful, I hope that location will be ruled out.

Miller Drive is fully occupied with cars and trucks. Residents who park there are hoping Woman's Club attendees will stop parking on Miller Drive and displacing residents. It is discouraging for residents to return home and find one's customary parking space taken. If visitors are to be encouraged to park elsewhere, they'll need nearby alternate sites. The most obvious choice is Chestnut alongside the Woman's Club building.

Thank you for all your hard work on behalf of the Town. I hope you will help with this.

Jane Seegal
