Suggestion for use of American Rescue Plan Funds

Dear Mayor Compton, Councilmembers, and Commission Chairs,

Please give serious consideration to using American Rescue Funding to extend the WSSC water line down lower Ridge Road. These residents do not have access to public water, a valuable amenity which everyone else in Washington Grove possesses. As a resident further south on Ridge Road I have always felt very fortunate to have this amenity. Our Town funds must be used as prudently as possible for the greatest public good, but the strictures on what these particular funds may be used for make this an excellent opportunity to address the availability of public water access for these residents.

Sincerely,

Georgette E. Cole
