We would like to echo the sentiment of other residents about the upcoming council vote on the Brown Street connection. I would encourage council members to vote in response to the overwhelming town vote in support of this location . The town has gone out of its way to provide unbiased assessment of alternatives and to allow residents to be heard. I think it is time to accept the will of the residents and bring this matter to conclusion. If interested parties would like to pursue alternatives it should be at their initiative. The town should make it clear to Montgomery County that Brown Street is our choice.

Thank you,

Mary Warfield and John Guidera

500 McCauley St.
