Dear Mayor and Council:

After writing my last email I saw Reverend Warner's letter. I believe the words he uses to describe the need for this Resolution would be appropriate for the preamble. Reverend Warner states that "...the town's behavior, though typical of people across the entire nation at the time, was racist, demeaning, exclusionary and painful." I am grateful to him for writing the letter. I still believe some of the many paragraphs in the draft preamble to be inappropriate as written.

Thank you,
