Subject: Accountability for town-sponsored committee meetings

I concur with the letters sent by Tom Land and Jane Souzon saying that any committee that receives funds from the town should not allow non-town residents to vote on committee issues, nor to be in a position of leadership on the committee.

Further, I think it should be clearly required that all such town-sponsored committees prepare written Minutes of their meetings, and once approved by that committee, provide copies of those Minutes to the Town Clerk and the Town Webmistress for distribution.
