

## Solar lighting on our town flagpoles

---

Mayor and Town Council:

Our flags must be lighted at night, especially the one in Woodward Park which is popular public space. Lighting which projects from under the flag is subdued and should not bother neighbors, a timely request now with shorter daylight. I am hopeful you will consider this request which would require a bucket truck and a small lighting unit easily purchased on the Internet.

Respectfully,  
Meredith Horan  
127 Maple Ave.
