

30 January 2025

Dear Mayor, Town Council and Playground Group,

I believe the highest priority for the playground is to resurface the basketball court.

In the fall 2024, the Town Council discussed the improper and damaging use of the hard tennis court by kids with bicycles, skateboards and rollerblades.

If kids saw the basketball court as a smooth surface, I believe they would go there to learn how to rollerblade, skateboard and ride their small bicycles.

The current pavement of the basketball court is rough, it is cracked, and it does not have lines for basketball. The surface is so rough that it is very hard for kids to make chalk drawings.

Let's make the basketball court an inviting surface for kids and adults.

Sincerely,

Tom Land
