Reviewed 2009 Master Plan Sections applicable to Forestry and Beautification.

Current changes (draft dated 1114 consolidating last month's discussion) were evaluated and accepted. A new draft version will be prepared and distributed prior to the first meeting in 2019 (March 13).

The 2006 Urban Forest Management Plan was discussed. When we read the plan recommendations we agreed

- 1) Many had been accomplished in the past 10 year.
  - 2) Many were beyond the scope of what a volunteer committee can realistically do.
- We did not conclude what needed to go in the Master Plan with respect to this plan.

Adjourn 9 pm.

Our next meeting will be Wednesday, March 13.
